

## Loving the Chosen One

By Dr. Taryn Lowery

February is the perfect time of year to talk about love! The ones around you that love you. The ones that you love deeply – for a short time or forever. Love is the most intimate expression of Jesus that we get to share. It means the most, raises us the highest, and cuts the deepest when abused or abandoned.

In celebration of love, true love, I want to surround you with light. The light that illuminates truth. I want to invite that light to travel into your thoughts, your heart, and your body. When you see what the light reveals, can you sit with the idea of love simultaneously? Does the innermost part of you reflect love to you?

This concept of loving yourself, honestly – deeply – fully – inexorably, is what Self-Love is all about. I hope you did enjoy the company of the light and love, in the same space. I hope that it warmed you inside out to experience the two together with confidence and certainty in WHOSE you are.

If that was not your experience, you are not alone. You are in fact, the majority. I read a beautiful sentiment from another chiro today. She said, "The nervous system is built by GOD to be resilient to stress. Only, it is through our own sin, separation, blindness, wounds, and health choices that we weaken that resilience." If I could expand on the thought, I would add that LOVE is the component that God gives us to combat the stress. Love covers ALL.

What has separated you from the version of you that God created; the fully loved, chosen, perfect, appointed, anointed, worthy, whole, heir of the Kingdom version of you!?? I know you can name a few. I invite you to take a bite-sized piece of separation today and lay it at the altar. Let God fill that space up with HIS definition of who you are. Begin the walk towards Self-Love with God. He is in YOU and He is FOR you!

Reach out to us for a reference of 70 scriptures that describe who God says you are! That's one of the quickest ways to Self-Love that I've found!

Praying you are covered in the truth of love today and each one ahead!

♥ Dr. T

### About the author:

Dr. Taryn Lowery is a daughter of the King, wife, mom, trauma survivor, chiropractor, and lover of YES! It's a whole lifestyle – lol! She is inspired by God's unfailing love to source light, joy, and grace to all that she encounters. A forever work-in-progress, she enjoys sharing stories, tenderness, and encouragement.

## #LIVESCHANGED

There is a first time for everything! We are incredibly grateful for the honor and joy of introducing people to holistic care. Every time we are a FIRST for someone, we add them to our celebration of transformation and freedom in health and healing!

#holisticoptions #alternativehealthcare

## Patients of the Month

### The Maxwell Family

This month we are celebrating the Maxwells and the light they bring to our village!

Ashley shared, "we are so blessed to have found Halcyon Village and truly could not imagine receiving care for our family anywhere else! We love the warm welcoming feel we get every time we come in. Dr. Taryn helped me tremendously through my pregnancy with our twins and most recently with my daughter and our breastfeeding journey."

"Our whole family routinely get adjustments and have had a pleasant experience with Dr. Joey and Dr. Justin as well. They all truly care about each person they see and always take time to explain anything that may be going on in our bodies and how we can best support each situation. My oldest is very active in sports and his monthly visits have really helped keep his body in balance."

If you haven't had chiropractic care Ashley would share with you are... "missing out on a wonderful healing experience and if you have any aches, pains or discomforts to definitely give it a shot."

## Dates to Look Forward To

14 FEBRUARY VALENTINE'S DAY

17 FEBRUARY PRESIDENT'S DAY

18 FEBRUARY STEPHANIE'S BIRTHDAY

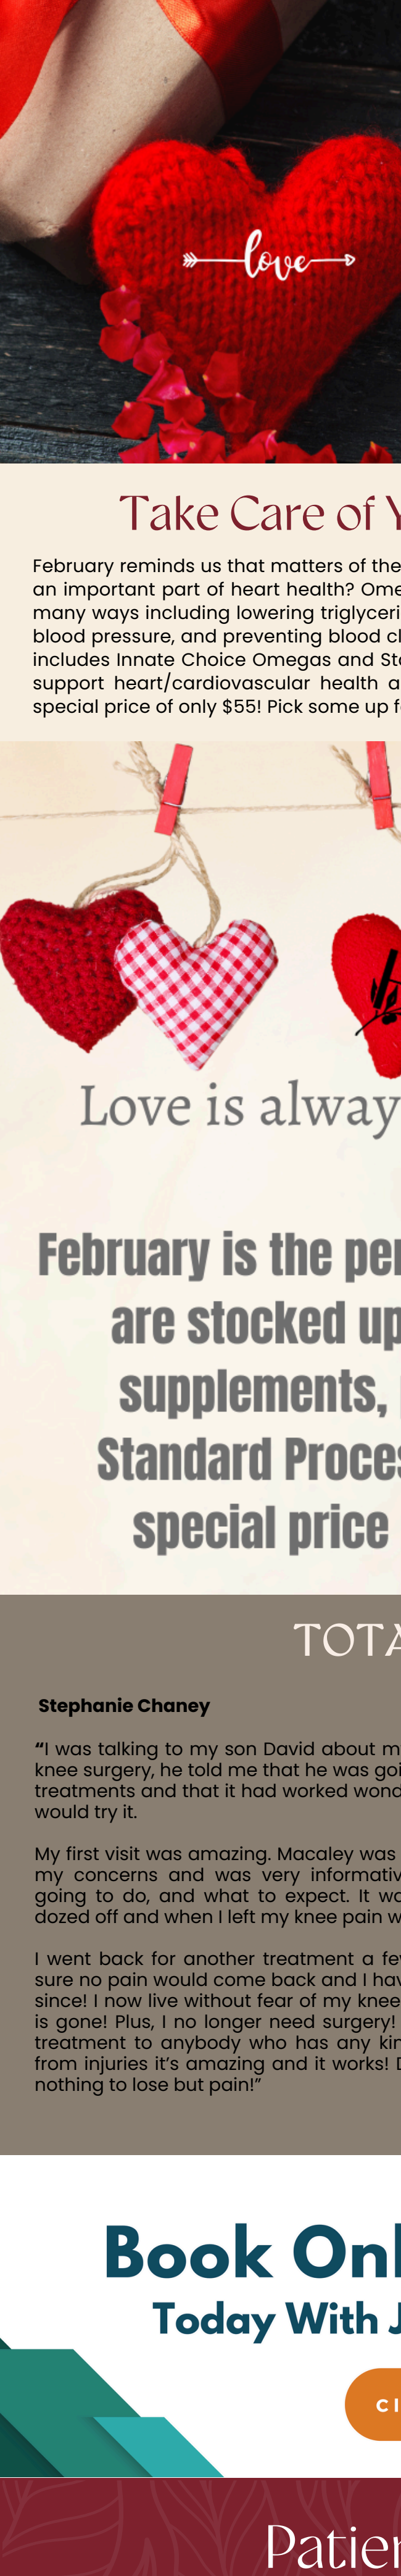

23 FEBRUARY KIMBERLY'S BIRTHDAY

MONTH OF FEBRUARY

NATIONAL HEART MONTH

@halcyonvillage

## Take Care of Your Heart with Omegas

February reminds us that matters of the heart are important! Are you taking Omegas? Why are they an important part of heart health? Omega fatty acids may help reduce the risk of heart disease in many ways including lowering triglycerides, improving circulation, slowing plaque buildup, lowering blood pressure, and preventing blood clots. In February Halcyon Village is offering a special set that includes Innate Choice Omegas and Standard Process Cardio Plus (a heart supplement that helps support heart/cardiovascular health and is an excellent source of niacin and vitamin B6) at a special price of only \$55! Pick some up for you and your sweetheart today!!!

Love is always in the air at Halcyon Village!

## February is the perfect month to make sure you are stocked up on all your heart-healthy supplements, pick up your Omegas and Standard Process Cardio+ together for the special price of only \$55 in February!

## TOTALLY TESTIFYING

### Stephanie Chaney

"I was talking to my son David about my doctor recommending knee surgery, he told me that he was going to Halcyon Village for treatments and that it had worked wonders for him so I thought I would try it.

My first visit was amazing. Macalee was so sweet, she listened to my concerns and was very informative about what she was going to do, and what to expect. It was so relaxing, I actually dozed off and when I left my knee pain was gone. It felt amazing!

I went back for the second visit a few weeks later to be sure no pain would come back and I have had no problems ever since! I now live without fear of my knee locking up and my pain is gone! Plus, I no longer need surgery! I would recommend LET treatment to anybody who has any kind of discomfort or pain from injuries it's amazing and it works! Definitely try it! You have nothing to lose but pain!"

## Patient of the Year

We are honored and excited to announce our Patient of the Year recipient, Mrs. Sue Netherland. Mrs. Sue has been visiting with us at the village and allowing us to serve her for some time now. If you ask any of the providers that have cared for her, there is a good chance you'll hear words to describe her such as: genuine, caring, selfless, God-loving, joyful and faithful. From the time she is received for her care that day to the heartfelt hug to close out her time with us, she is always exhibiting a state of gratitude and sincerity. She epitomizes these traits and so many more, and we're so thankful Mrs. Sue, is a part of our village. We love you Mrs. Sue! - Halcyon Village

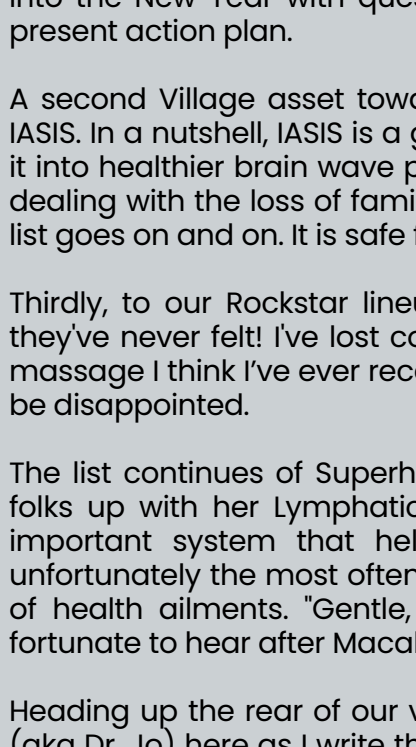

## Chiro Corner

We're Going to Light up 2025!

By Dr. Jo

It's amazing how fast a previous year can come and go, but with the curtain closing on one year, the next poses exciting opportunities for us to serve our patients and reach a greater level of impact for those in need!

What do I mean by this statement? For starters, Our Health Coach, Christy Tyree, has been making major waves with her guidance, nurturing advice, and accountability within her service on helping folks get on a better track of health and execute the necessary steps to stay on course if you're rolling into the New Year with questions or uncertainty on where to start or need some tweaking of your present action plan.

A second, in a nutshell, IASIS is a gentle electrical bathing of the brain that positively stimulates it to retrain it into healthier brain wave patterns. Who benefits from such therapy, you may ask? We've seen folks dealing with the loss of family, folks with anxiety, post-concussion, Military Vets dealing with PTSD, the list goes on and on. It is safe for both adults and children if you were wondering.

Thirdly, our Rockstar lineup is Lisa Sanders bringing some Massage Therapy, that was the people like myself we've never felt! I've lost count of how many folks have exited her room saying, "That was the best massage I think I've ever received." Why not give her a try and see for yourself what I mean? You won't be disappointed.

The list continues of Superheroes at Halcyon Village with Macalee Davee (aka Magic Mac) lighting folks up with her Lymphatic Enhancement Therapy. Your Lymphatic system is a passive but very important system that helps you detoxify, eliminate, and ward off harm to your organs. It's unfortunately the most often neglected system. A stagnant lymphatic system is a recipe for a variety of health ailments. "Gentle, Relaxing, and life-changing" are just a few of the words we've been fortunate to hear after Macalee works her Lymphatic Magic.

Heading up the rear of our village, from a provider standpoint, are the chiropractors. Dr. Joey Lowery (aka Dr. Jo) here as I write this article. My passion lies in helping everyone earn back the quality of life they deserve, helping them lock in on a "WHY" when it comes to their health, and trying my best to educate and empower my patients on small daily actions that turn into big wins. Dr. Taryn Lowery (my better half) I feel needs no, if very little, introduction. I proudly say she was our class' "Most Outstanding Intern" while at Parker College, and still today brings her best to her patients serving everyone while putting a dash of focus and extra love on those beautiful babies she takes care of. The man, the myth, the West Texas Legend, Dr. Justin McGuire (aka My brother from another mother) brings it full circle with his genuine and authentic care. He's a true selfless servant who will win you over the minute you allow him to care for you. We've been truly fortunate to witness what an amazing impact he's had on his patients in God's Glory and not his own.

Finally, the TRUE MVP perched at the office are those who help keep the chaos coordinated and running smoothly. Jessica, Julia, Novelette, Stephanie, and Valerie all bring their special talents, ideas, and energy to the village with authenticity and willingness to make a difference. I am confident when I say we at the village are all so grateful for their presence. I close this out with the motive of enlightening our readers about who we are, and what we bring to the office, and promise you this statement... We're coming into 2025 with a mission to impact more people than we ever have. We're bringing more service and more value to our patients than ever before. We're going to make a difference like we've never done before. Thank you for allowing us to serve you and your loved ones. Thank you for trusting us to be in your life and thank you for allowing us a relationship with you on your health journey. Let's make 2025 light up for you together!

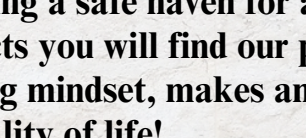

Blessings and Abundance,

Dr. Jo

## JOHN'S REVIEW

"I was not sure about the LET when I went in but after my treatment I am feeling more confident in the process. Macalee made sure I was comfortable and answered my questions in a honest and understandable way, she really cares and wants her patients to have a good experience."
